Hot Chocolate Hullabaloo

At Home

3D Winter Landscape

Recommended for ages 12+
advanced cutting skills required

Instructions:

1. Start with the template with the three trees. (The template with the deer and the create your own template are more difficult).
2. Make three folds along dotted lines that say "Fold Here."
3. Unfold page, then fold only one of the trees at a time.
4. Cut out the outline of the first tree, then repeat for the other two.
5. Fold the first tree. Starting from the center fold, cut along interior lines. Be careful to not cut all the way through.
6. Now fold the tree, so the printed lines are on the inside of the folded tree.
7. Carefully fold every other segment so that half are pointed in one direction, and the other half will be pointed the opposite direction.
